CANDIDATES - CDHM - 2017/2018 Election

Johanna Nemiroff Grant

Statement of Intent

I am interested in contributing to the profession in a non-clinical setting to aid in the advancement of the dental hygiene profession in the Province of Manitoba. This would entail that dental hygienists are valued as self-regulated primary care health professionals. I would welcome opportunities to collaborate with other self-regulated healthcare professionals as I feel that inter-professional collaboration will help contribute to the continued advancement and evolution of the College.

My intention is to serve as a productive council member contributing in maintaining and advancing the profession of dental hygiene in Manitoba.

I value the importance of keeping current within the profession, practicing competently, professionally, and feel dental hygienists in Manitoba should be practicing at the highest standards delivering quality care to the public.
