CANDIDATES - CDHM - 2017/2018 Election

Karina Hiebert

Statement of Intent

I am standing for re-election to the CDHM council to continue contributing my efforts towards a strong regulatory body for dental hygienists in Manitoba. My desire has always been to work for a strong, proud, and respected profession, as I have for the past 14 years. Keeping my own knowledge and skills current and sharp is one way to do that. Working for the College is another way. I have learned much about the role of a council member over the last 4 years through experience and training. I have worked in several different roles including the Professional Practice Committee, Vice-chair, and Chair of Council. At this time I feel a responsibility to continue to serve on council considering the experience and training I have received, and hope to continually improve upon.
